SAILING

SAILING is a game of strategy and simulation designed to capture the thrill of competing in top-level sailing competitions. You'll need all your wits about you as you design your boat to take part in this international challenge.

Out there on the ocean, use your skills as a seaman to steer your yacht around the buoys on the course, deciding when to hoist the spinnaker to your best advantage. And don't forget to watch out for the weather – just one gust of wind can blow your chances of winning.

Sixteen nations compete – only the strongest can win!

Designed and programmed by
Oxford Digital Enterprises

Commodore 64 screens shown

Manufactured in the United Kingdom
Fabriqué en Grande Bretagne

UQD 570
